**DETAILED ACTION**

1. The amendment filed August 7, 2002 has been received and entered.
2. Claim 1 has been cancelled.
3. Claims 24-49 have been added. Claims 2-49 are currently pending.

***Election/Restrictions***

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 2-20 and 24-49, drawn to a method of treating an autoimmune disorder, classified in class 424, subclass 140.1.
  - II. Claims 21-23, drawn to a kit for treatment of autoimmune disease, classified in class 435, subclass 287.2.

The inventions are distinct, each from the other because of the following reasons:

5. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by another apparatus, such as by contacting the patient cells with the inhibitory complex in a petri dish.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
